Master in Front End Development 2024  
Red & White Multimedia Education

- I completed my master course and I learned lots of things about developing and designing

### SKILLS

- HTML 5
- CSS 3
- JavaScript
- React JS
- Bootstrap
- Tailwind

### PROJECTS

#### Taskify (Task manager website)

- Developed an efficient task management app, Taskify, enabling users to streamline workflows with task creation, reading, editing and deleting features. Designed a responsive, user-friendly interface focused on delivering a seamless experience with a modern UI.

#### Personal Portfolio Website

- Developed and designed a personal portfolio showcasing my expertise in front-end development. Utilized all front-end skills to create a visually appealing and responsive interface. Highlights my completed projects, technical skills, and design sensibilities, demonstrating my ability to deliver high-quality, interactive, and user-friendly web applications. Focuses on user experience and provides an engaging, dynamic browsing experience.
